

Business Associate Intern

Remote Internship Offer

AAI Labs is a diverse team of ML professionals creating custom AI solutions for government and private sector clients.

This 3-month Business Associate Internship will play an integral part in the success of our commercial team. It offers an exciting opportunity for a self-starter with an entrepreneurial mindset to participate in building and growing our business.

Unlike traditional internships, we have designed this program to give you exposure to multiple business functions, including Sales, Marketing, Project Management, and Business Development, interacting with both public and private sector clients.

Based on your performance and where you shine brightest, there will be an opportunity to join our team full-time in a specialized role after the internship period.

During your internship, you will:

- Work alongside our commercial and technical teams on a variety of projects
- Support sales initiatives, including lead generation and customer relationship management
- Assist with marketing activities, content creation, and campaign analysis
- Participate in project planning, implementation, and stakeholder communication
- Conduct market and competitor research to identify new business opportunities
- Help develop processes to streamline operations
- Track and report on key metrics using business software tools

What we're looking for:

- Fluent English and Lithuanian language skills (both required)
- Critical thinking, a high level of independence and problem-solving abilities
- Strong communication skills and attention to detail
- Ability to handle multiple projects simultaneously

Nice to have:

- International experience (studies abroad or similar) is a plus

What we offer:

- Fully remote internship (flexible duration)
- Competitive internship salary
- Flexible work arrangements - perfect for students (can combine with university)
- Mentorship from experienced team members and AI practitioners
- Real responsibility and impactful work from day one
- Clear path to full-time employment for top performers
- Opportunity to work on diverse AI-driven projects across multiple sectors

Recruitment process:

1. Application screening
2. Individual exercise with practical tasks
3. Interview to understand your motivations and potential fit
4. Decision

How to apply?

Please submit your CV to hello@aai-labs.com.

AAI Labs is committed to building a diverse team. We encourage applications from candidates of all backgrounds.
